

March 7, 1975

SENATOR CHAMBERS: Mr. President, as we know in this country and this state reflects it, there is a division of powers into Legislative, Judicial and Executive. I would like to know whose name is on that bill as the introducer?

PRESIDENT: Mr. Clerk, could you advise Senator Chambers as to who is the introducer of 575.

CLERK: J. W. Burbach at the request of the Governor.

SENATOR CHAMBERS: Since we do have a Senator's name on it, I won't ask for unanimous consent to have my name on it but from this point forward, I hope the Governor will stay in the Executive division of government and not interfere in legislative matters. Thank you.

PRESIDENT: Are you ready for the question? The question is, the advancement of 575. Record your vote. Record, Mr. Clerk.

CLERK: 34 ayes, 1 nay.

PRESIDENT: The bill is so advanced.

CLERK: LB 529 introduced by J. W. Burbach, Speaker, at the request of the Governor. Read title. There are Committee amendments, Mr. President, from Senator Marvel's Appropriations Committee. There are, also, further amendments offered by Senator Marvel, apparently to...are these to the Committee amendments?

PRESIDENT: The chair recognizes Senator Marvel.

SENATOR MARVEL: The first set, Mr. President, will be found on Pages 753 to 756 in the Journal. What we have tried to do here, where there were amendments either at the request of the Governor and/or his representatives or that the Committee felt were code departments and should be attributable to the Governor, we have put them where we thought the burden ought to be placed. Now if I might explain four amendments on Pages 753 and 756 in the Journal, the first amendment is found on Page 754 and it starts on line 25 and this is an addition of \$98,158 of General Fund money assigned to the Department of Administrative Services and this is to take care of back payments due for Social Security. The DAS and the appropriate officials in the federal government have been involved in a controversy for a number of months starting out with hundreds of thousands of dollars and this is the agreed to figure now that would put Nebraska back in the good graces of those involved in Social Security. The second amendment, which is found on Page 755 starting line 18, has to do with \$339,400 from the Revenue Sharing Trust Fund to renovate part of the "R" building out at the Lincoln Regional Center for additional patients. This is something that should have been planned under the Department of Public Institutions months ago and they now come in this way to solve their problem. Item #3, starts on bottom of Page 755, Section 10, has to do with the Department of Correctional Services. It would appropriate \$11,320 out of the General Fund and allocate \$106,380 of federal fund to purchase the Crete missile site to be involved in necessary rehabilitation activities of the Department of Corrections, and finally, the fourth amendment which is on Page 756 and starts with line 26 changes the language in regard to the Child Savings Institute building in connection with the Medical Center in Omaha and
